

At TE Connectivity, Quality is everyone's job.

The TE Quality Policy

It is the goal of TE to continually deliver safe, effective, high-quality products and services, on time, to our customers and internal operations.

Processes and controls shall be implemented such that tasks are performed properly the first time, so that products and services meet established agreed-to requirements.

Quality, customer satisfaction, continual improvement, maintaining the effectiveness of our quality management system, and compliance with customer and regulatory requirements, are the personal responsibility of every employee.
